

Wills and Bequests

A gift left in a Will, also known as a bequest, is a gift given to charity. It empowers individuals to express their wishes regarding how their inheritance is passed on. It is a deeply personal choice, and a way to leave a meaningful legacy for your vision for the future. It can also be an opportunity to donate to charity that you may not have been able to during your lifetime.

WHO WE ARE

Community Restorative Centre is the leading community provider of support services to people affected by the criminal legal system in NSW. Our vision is a just, safe and inclusive society that is working towards decriminalisation and decarceration. Together we can make a better future.

MAKE A DIFFERENCE

A bequest to CRC, no matter how small or large, will directly go into our programs that aim to reduce crime and break entrenched cycles of disadvantage, offending and imprisonment. Imprisonment is overused, harmful, costly and causing rather than reducing crime. Help us restore hope and dignity.

SUPPORT WHEN NEEDED MOST

CRC support is holistic, long-term, intensive, relational case work throughout the process of reintegration. We advocate to ensure our clients can access housing, alcohol and other drug, disability, health and other critical services. We advocate for other services and sectors to prevent exclusion of people who have been incarcerated.

COMMUNITY AND FAMILIES

Families face a 'silent sentence' of stigma and shame. CRC provides information and support for families with loved ones in prison. Our recognise the intergenerational impacts of incarceration, working with overincarcerated communities to create change and break the cycle.

FIGHTING FOR CHANGE

CRC is bringing an independent and critical voice through policy advice and advocacy. Through our research we develop an evidence base to inform best practice in the community sector and enable more effective responses to the structural drivers of reoffending and incarceration.
